

## PANPAN'S ABC

**Bao** // soft, steamed buns stuffed with meat and crisp vegetables  
**Daikon** // big, white, crunchy root vegetable known as Japanese radish  
**Hoisin sauce** // sweet, salt, and spicy  
**Kaffir lime** // lime leaves with a sour flavour  
**Kimchi** // mixture of fermented vegetables  
**Kumquats** // citrus fruit with an edible peel  
**Ponzu** // lemon-based soy sauce  
**Yuzu** // asian citrus fruit

## CAN YOU EAT AS MUCH AS XING ER?

Can you spot the Giant Panda Xing Er? He lives just outside Bistro panpan's windows, in the facility designed by Danish Bjarke Ingels Group.

You have to order a lot of dishes from our menu to keep up with Xing Er. Pandas are proper food lovers and typically spend 16 hours a day chewing through up to 40 kilos of bamboo. The rest of the time they mostly rest. Bamboo is quite poor in nutrients, so they need to save energy.

We do not have panda cubs - yet. The Giant Panda prefers to live alone, and ZOO's female panda, Mao Sun, live in the opposite part of the facility. Xing Er and Mao Sun only meet a few days a year when the female is in heat. If they get cubs, they are pink and almost naked at birth, measure approx. 15 cm and weighs 100 g.

The Giant Panda has long been one of the most endangered animals in the world but is now less threatened of extinction and categorised as 'vulnerable' on the 'IUCN Red List of Threatened Species'.

The word 'panda' most likely comes from the Nepalese word 'ponya', which means 'eat bamboo'. The scientific name, *Ailuropoda melanoleuca*, refers to the fact that the panda's large paws - poda - are like the red pandas - *Ailurus*. Black means - melano - and white - leuca.
